

Big Bear is known for its fresh mountain air, beautiful vistas and being a small resort town tucked neatly in a National Forest. It is also known as a town of helping hands and support. Neighbors helping neighbors truly resonates with the Big Bear community as we move forward in making Big Bear a better and stronger community despite the many challenges. During these times of challenge I am compelled to run for reelection to the Big Bear Lake City Council this fall. As we move through this summer let's find it in our hearts to support each other and our community because we are truly blessed to be surrounded by friends and to call Big Bear Valley our home.
